It is the purpose of the club to operate as an auxiliary to the chamber of commerce, to assist it in entertaining and to maintain the buffet privileges at present held by the Beavers. As a lodge the local Beavers' club will go out of existence and will be absorbed by the new club.

Because the chamber of commerce has no social club connected with it the promoters of the new club suggest that this organization can become part of the chamber of commerce and will aid in social features. It is proposed to take over the present club rouns of the Beavers in the
